

TACO TANGO

Workshop at the ESRF, Grenoble

14-15 November 2001

Status of TANGO

E. Taurel, European Synchrotron Radiation Facility, 6 rue Jules Horowitz, Grenoble, 38043, France

TANGO is the new generation of the object oriented control system presently under development at the ESRF. The talk will describe the TANGO philosophy and the existing tools developed around it. It will be followed by a live demo of writing and testing a TANGO device server using the code generator.
