

USERS MEETING

9, 10 & 11 FEBRUARY 2015

ESRF, Grenoble, France

Learn, discuss and experience science with synchrotron light: the annual event dedicated to the ESRF users.

PLENARY SESSION

- Keynote speakers
 - **Dr Catherine McCammon**, Bayreuth University
 - **Prof. Tim Salditt**, University of Göttingen
 - **Prof. Hyotcherl Ihee**, KAIST
- Young scientist award
- Annual Director's report
- Poster session, clips and prize

USER-DEDICATED MICROSYMPOSIA

1. Novel routes for the study of strongly correlated electron systems
2. New possibilities for chemical studies
3. Hierarchical imaging of biological, bio-mimetic and bio-compatible materials
4. Structural Biology at the ESRF
 - More than crystallography

With Invited talks and tutorials "Scientists & Media" workshop

All users of the ESRF are invited to actively participate in the event by registering, submitting abstracts for a poster or for a talk at the scientific microsymposia (for accepted talks local costs will be waived).

Web page:

www.esrf.fr/home/events/conferences/um2015.html

Deadlines:

Abstract submission for microsymposia:	29 November 2014
Young scientist award nomination:	12 December 2014
Registration:	23 January 2015

**Organised by
User Organisation
with the support of the ESRF**
